

Software developer (f/m/x)- with focus on Artificial Intelligence (AI)

We are a **Beauty-Tech-Startup** based in Essen/Duisburg. Our interdisciplinary team combines deep knowledge in App development, Sales & Marketing and Finance. We are currently building a **platform to connect private beauty artists to customers using modern technology**. Driven by an entrepreneurial mindset we truly believe that our product will simplify and optimize the way beauty services will be purchased and experienced in the future.

We are looking for an **ambitious entrepreneur** to join our early-stage startup. In order to become part of our team you should strive for action rather than bureaucracy and **be available right away as full-timer** in our **Duisburg office**. Be read to become part of something bigger.

YOURPROFILE

- Successful study of computer science/engineering or comparable study with Bachelor/Master/Diplom
- Profound expertise in AI with focus on algorithms and neural networks
- Knowledge in handling current image processing libraries (OpenCV, IPP)
- Knowledge in handling current AI frameworks (Tensor Flow, Keras, etc.)
- Entrepreneurial mindset

YOUR TASKS

- Implementation of new image processing methods
- Design of AI architectures based on neural networks
- Conception, design and programming of software components
- Software integration

WHAT WE OFFER

- **EXIST Scholarship + Attractive compensation (+ further benefits -> Shares)**
- A spot in the successful expansion of an innovative and powerful Beauty-Tech-Startup
- We offer a casual and fun **work atmosphere**, which encourages innovation and taking responsibility

Interested? Send us your application to Can Kaplan or just call (+49 (0) 1590 - 1455011). We are looking forward to getting in touch with you!
